RE: EXPORT OF SAMPLES

This is to confirm that **Dr. [REDACTED]** who is a research affiliate of the National Museums of Kenya has formally applied for an export permit. He will be exporting **Surface and lake sediment samples** collected from **[REDACTED]** and **[REDACTED]** in **Kajiado South County** and **[REDACTED]** in **Mau, Narok County**. The samples are being taken for scientific **analysis**, which will be done at the **[REDACTED]**, **UK** and the **[REDACTED]**, **Belgium**.

The samples have no commercial value and they will undergo destructive processes and are not expected back in the country after analysis.

Any assistance and co-operation given to him will be highly appreciated.

Yours Sincerely,

Dr. Ahmed Yassin
Ag. Director General.
